Solid experience in creating attractive and functional user interfaces with accessible digital experiences.

RELEVANT EXPERIENCE

Frontend Developer

ARCO Innovation and Technology| Feb 2024 - May 2024
- I developed and designed an interactive web application for selling tickets for "RSC Leones Riobamba" basketball games.
- UI/UX design with Figma.
- Use of modern web technologies such as Next.js, TypeScript, TailwindCSS.
- I implemented the use of APIs with Spring Boot technology.

Frontend Developer

Ai Agency | Sept - Dec 2023
- Developed and designed the interactive web application.
- Solid, high-quality construction with nextui.
- Maintained and prepared production code for the application using mainly NextJS, TypeScript, TailwindCSS.

Graphic designer

AGD E-Sports | Jan 2020 - Dec 2022
- I designed graphic content for social networks.
- Product and t-shirt design.
- Edited videos and shorts with Sony Vegas.
- Graphic line design using mainly Adobe Photoshop, Illustrator.

Web developer

BuSmarT | May 2020 - Apr 2021
- I developed and designed the interactive website using WordPress.
- Solid architecture of the administrative panel for operators.
- Maintained and released production code for the application using mainly Angular.

EDUCATION

International University of La Rioja

Degree in Computer Engineering
Mention in Software and Computer Engineering
Oct 2023 – Present

National polytechnic school

Degree in Software Engineering
Nov 2020 – Mar 2023

SKILLS

Programming
JavaScript, TypeScript, HTML, CSS, Sass

Libraries & Frameworks
